

# Sigifredo Laengle

Associated Professor

## Teaching

What are we teaching?

*Articulating* contents. From different disciplines and theories. Integrated knowledge introduce innovation for solving practical problems.

## Research

What are we exploring?

*Integrating* different theories. Concepts and ideas from mathematics, economics, information systems, and management.

## Extension

How are we interacting?

*Bringing* teaching room to real problems. Making alive knowledge by solving and teaching real problems is the best incentive for innovation.
